

Perryfields Primary PRU - Pupil Premium 2015-16

Allocation £6,660.00

The 2015-16 Pupil Premium allocation has been targeted towards interventions improving the reading progress and achievement of Pupil Premium pupils at Perryfields. This strategy has been adopted as the pupils at Perryfields need to bridge academic gaps before they return to mainstream. Learning to read is an enjoyable experience for the children as it boosts their self esteem. We are able to use measurable data such as reading ages in order to ensure impact is being made. At the time of this review our Pupil Premium children are outperforming other groups due to our intervention strategy.

As the graph (below) shows permanently excluded pupils who receive free school meals are significantly out performing non free school meal pupils.

Impact

- Ensuring all children have the same equality of opportunity;
- Ability to improve pupil:staff ratio in order to give children more individual and precise teaching;
- Greater personalised support for pupils;
- All pupils able to develop skills in Reading and Phonics;
- Better integration for children experiencing social, emotional and behavioural difficulties.

Our Pupil Premium Strategy is reviewed annually using pupil achievement data to measure outcomes.
